

ALWYN WYMEERSCH

DESIGNER BY NATURE, CODER AT HEART

PROFILE

Even before I started my studies I tinkered with creative tools to create unique alternatives to boring papers and powerpoints. This is still my main driver. Always trying new things and pushing boundaries for myself and the projects I work on. I'm always curious and engaged in all endeavours I start.

SKILLS

DESIGN (WEB + PRINT)

FRONT-END WEBDEV

BACK-END WEBDEV

MOBILE DEV (NOT NATIVE)

3D PROGRAMMING

MOTION GRAPHICS

TEACHING

PROJECT MANAGEMENT

WORK EXPERIENCE

MULTIMEDIACOLLEGE 2007 - 2011

MMC was an Adobe Training Centre and industry freelance hub. My job was split into two parts, teaching Adobe products to professionals and development. I worked with our own and external teams during various projects (mostly Flash based) for different agencies. Sometimes taking the lead. As a certified trainer I also had the opportunity to give talks and workshops at different conferences and meeting groups.

FLAMES PRODUCTIONS (SELF EMPLOYED) 2009 - 2019

As a freelancer I worked for a number of agencies and independent studios. The projects varied between building web and mobile applications (front and back), design and motion graphics.

STUDIO RGB 2012 - 2016

A partnership with another freelancer. I was mostly responsible for translating unique designs to functional multi-screen websites.

VIRES 2016 - 2019

As a UX developer I worked on a number of Virtual Reality training applications. My main job was working on UX/UI but also did a lot of 3d modelling and unity development. Other responsibilities were client contact and overall project management.

EDUCATION

IT MANAGEMENT 2002 - 2004

Broederschool Sint-Niklaas

Secondary school specialisation programming and networking.

MULTIMEDIA & COMMUNICATIONTECHNOLOGIES 2004 - 2007

Hogeschool West-Vlaanderen - Howest

Educated in programming, web development, multimedia production and backend technologies.

PROJECTS I'M MOST PROUD OF

THE FLASH DAYS 2002 - 2014

Back when Adobe Flash was still a thing this was my forte.

I worked on a number of projects ranging from games and 'experience' websites and full fledged applications using Adobe AIR.

EUROPEAN COMMISSION TOUCHSCREEN INSTALLATIONS 2010 - 2015

Over the course of 5 years I worked on 3 different touchscreen installations for the EC. The most recent version is still on display in EC visitor centres in Brussels and Berlin.

RENSON MOBILE APPLICATIONS 2015 - 2017

Both the Endura Delta and Renson Outdoor applications connect to network-connected hardware and let users change the behaviour of their home ventilation and terrace respectively.

The apps were build using webtechnologies allowing us to target all mobile platforms with the same codebase.

EVERY VIRTUAL REALITY PROJECT 2016 - 2019

Virtual Reality is new and exciting. There is not much to copy or be inspired by so it was key to create of new ways to present content and add interactivity to a digital world. All projects revolved around training safety and maintenance procedures.

AGENCIES I WORKED WITH

DUVAL GUILLAUME • THESE DAYS • TWBA • GROUP94
BBDO • PROPHETS • AGX • DREAMS AND CREATIONS
TIPIK • INSTRUXION • THE HOUSE OF MARKETING
FAMOUS

- WORK ON INDUSTRY AWARDED PROJECTS
- LEARN A NEW TOOL OR PROGRAMMING LANGUAGE
- TALK AT A CONFERENCE
- WRITE MY OWN FRAMEWORK
- MANAGE A TEAM
- WORK ABROAD

NON-PROFESSIONAL ENGAGEMENTS

KSA YOUTH LEADER 2003 - 2008

Organising weekly activities from kids between 12 en 17

HELP NEPAL FUNDRAISING 2015 - 2017

After the earthquake in Nepal, which I experienced first hand, I organised a couple of fundraisers with a small team of people to raise funds for rebuilding of schools.

SECRETARY VOS ULTIMATE FRISBEE 2016 - NOW

Responsible for all the board meeting reports and arrangements with third parties

HOBBIES

ULTIMATE FRISBEE

A unique and intensive sport that combines all the best parts of soccer, basketbal and american football. A sport without referees so fair-play is of much importance.
